## WHY DEMS?

DEMS is elegant in its operational concept of a 'Service Oriented Approach'. The distributed and synchronized data provides the source of information needed for student, parent, staff and management at a much higher speed. It is designed to speed up various tasks across the institution system and offers modules from student robust features that benefit educators, students, and staff. DEMS automates the entire student life-cycle — integrating admissions, registration, student billing, student services and more into a single system that even includes built-in, self-service portals, all operating on a single, secure database. It enables stakeholders to benefit from readily available data shared in real-time, boosting efficiency and reducing the number of systems an institution maintains, all while also eliminating redundant data.

# BENEFIT

## BENEFITS TO SCHOOL

---

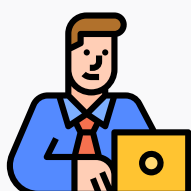

DEMS is a comprehensive school management software which takes care of the needs of all major stake holders and departments of your school including management, staff, pupils/students & parents.

## BENEFITS TO PARENTS

---

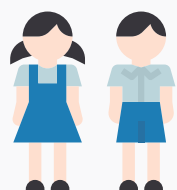

Parents can get real-time updates about their children time to time. Every parent will have a unique login. Web portal will avail pupils/students information, report cards, timetable, exam schedule and various reports.

## BENEFITS TO STAFF

---

All teaching and non-teaching staff related activities like allotment of classes, student parent meeting and many more can be managed efficiently.

## BENEFITS TO PUPILS/STUDENTS

---

Pupils/Students will have access to all updates from the school such as circulars, assignments, exam schedules, time-table, lesson plan, etc. School diary and holiday information also can be assessed from the application
